"Words From The Commodore"

Commodore- John Guess

It won't be long now! The covers are coming off the boats and everyone is starting the annual process of getting ready for the boating season. With that another opportunity to get in your first half work hours is coming up Saturday May 1st. Beginning at 8:00am we will have two work parties, one group will be installing the wall clamps and the second will handle the grounds clean-up. This is a great way to reconnect with old friends and make some new ones, I encourage everyone to come out and participate. I also want to thank Hank Sewalk for volunteering to take on some of the responsibilities for the fleet position. At Thursdays meeting the membership approved the purchase of the new back flow preventers the club will need to be compliant with the government regulations. The purchase will be contingent on the outcome of a meeting that will take place this Monday, May 19th that will establish which backflow preventer will meet the requirements. Thanks go out to R/C Joe Lucas and P/C Tom Adams for their help with this situation. I also want to Thank Sandy Kiss for her work researching the different preventers and the discount she obtained for the club from a local plumbing supply company. Also, a reminder to everyone that Memorial Day weekend will soon be approaching, we will be sending out more details on the activities scheduled later this month. We recently had some sad news, Tom Simek's father passed away and former member and past bridge member Carmen Palmieri passed away. Our condolences to the Simek and Palmieri families.

Clubhouse Comments

Vice Commodore- Mike Piunno

Thanks to the membership for agreeing to say the Pledge of Allegiance before the start of each membership meeting. The Sergeant of Arms will lead.

Work tickets. I still have work tickets for some members who have hours for Spring House cleaning. I will make sure you get the tickets.

Big Thanks for the floor cleaning and waxing. Thanks to Al Jerson, Ron Sweeney, Mike Scully, and Jim Jerson. The floor looks very good! That takes alot of time to complete. Thank you again.

If you haven't seen the bar stools-take a look. They have been completed. After Tim & Kyle Kaselonis and Dave & Michael Kiss completed the sanding and stripping, Joe Ciliberto stained and finished them. Thanks Joe. What a difference. They add to the appearance of the bar. Thanks to all for your efforts.

Reminder, the ice is up and running. Also the Club will be rented on 4-24-10. On 5-1-10 Sally Greiner will be having a scrap booking party. See the bulletin posted on the board.

Please be careful. The screen has been repaired on the sliding door near the bar. We should paint a picture on it so members can see it.

Geneva Cruise June 18, 19,20. Slip rental form are on line (CLUB WEBSITE) and on the merchandise cabinet.

Need work hours? Here are some projects. Ladies shower doors to be painted. Power wash and treat the deck. Clean out freezer room and upstairs garage. Call me with any questions.

Thanks for everyone's help.
